Tanishq Agrawal

Gwalior, Madhya Pradesh

7489164811 — tanishqagrawal73106@gmail.com — LinkedIn — github.com/Tanishq763

LeetCode: Wanderer_Tanishq — CodeChef: tanishq73106 — Codeforces: Wanderer_Tanishq

Education

Maulana Azad National Institute of Technology (MANIT),Bhopal 2024 - Present
Bachelor of Technology in Computer Science *CGPA: 8.44 (Till 4th sem)*

Siddharth Modern Higher Secondary School, Gwalior 2022 - 2023
Class 12th *(Percentage: 93%)*

Projects

CP-Tracker — MongoDB, Express.js, React.js, Node.js — Live Demo
Github Repository

- Built multi-platform CP aggregator fetching real-time ratings and stats from Codeforces and LeetCode APIs with server-side TTL caching reducing redundant API calls by $\sim 70\%$.
- Integrated Groq API to generate personalized DSA learning roadmaps based on user's solved problem history.
- Developed an interactive React dashboard with multi-platform performance comparison charts, deployed on Render with MongoDB Atlas for JWT-protected user persistence.

InkAI — MongoDB, Express.js, React.js, Node.js — Live Demo
Github Repository

- Architected a voice-first MERN blog platform with Groq Whisper achieving $\sim 2s$ Hindi/English transcription.
- Generates full blog posts automatically via LLaMA 3.3 70B with AI tag suggestions and text-to-speech.
- Implemented secure authentication using Google OAuth 2.0 and JWT, enabling seamless user onboarding and session management.
- Deployed MERN stack on Render and Vercel with MongoDB Atlas and author profile management.

CodeArena — MongoDB, Express.js, React.js, Node.js, Socket.IO — Live Demo
Github Repository

- Engineered sub-100ms real-time state sync across 200+ concurrent users using Socket.IO rooms with isolated host/player/leaderboard event channels.
- Architected live betting engine tracking player's wagers across rounds, atomic score updates persisted to MongoDB Atlas
- Deployed as the official event platform for Vision CSE Tech Fest — handled 200+ simultaneous participants with zero reported downtime.
- Designed RESTful APIs with Express.js for session management, game history, and leaderboard aggregation.

Skills

- **Languages:** C, C++, HTML, CSS, JavaScript, Python
- **Frameworks:** React.js, Node.js, Express.js, Socket.IO
- **Databases:** MySQL, MongoDB
- **Dev Tools:** Git, GitHub, Postman, VS Code, Render, Vercel, MongoDB Atlas
- **Coursework:** Data Structures, Algorithms, Database Management, Object Oriented Programming, Computer Networks,Operating system

Achievements

- Global Rank 51 in CodeChef Starters 174 Div 3 out of 22000+ participants.
- Achieved AIR 993 out of 40,000+ participants in IICPC Codefest'25. | Certificate
- Global Rank 320 in LeetCode Weekly Contest 485 out of 34,000+ participants.
- Solved 1100+ problems on LeetCode (Knight – Rating: 2023).
- Solved 500+ problems on Codeforces (Specialist – Rating: 1439).
- Achieved 3-star rating (1738) on CodeChef.

Experience

VISION CSE, MANIT Bhopal Nov 2025 – Present
Co-Coordinator

- Conducted DSA and debugging workshops for 250+ first-year students, covering various DSA concepts and Algorithms.
- Co-organized CodeCrux, a flagship competitive programming event with 350+ participants.

Zenith the Programming Club of MANIT Bhopal May 2026 – Present
Technical Executive

- Proposed and designed DSA event formats including speed-coding and debugging challenges.
